

PORTABLE PIPE / STRAIGHT GAS CUTTER

- Characteristic:

Portable pipe cutter has two kinds, The TG2-11G and TG2-11D. It can perform excellently in cutting the shape of all 'I' and 'V' bevel. It can meet most requirements of cutting pipe.

The TK-12 Beetles cutter is a portable oxy fuel cutting with high quality, motor drive and a mechanical speed changer. The improved transportability and operability will surely contribute to rationalization and labor saving of cutting operation.

- Specifications:

Model	Pipe Cutter		TK-12 Beetle Gas Cutter
	TG2-11G	TG2-11D	
Cutting Thickness	6 - 50 mm		5 - 100 mm
Pipe Cutting Diameter Ø	150 - 600 mm, by standard chain > 600 mm, by extra chain addition		-
Cutting Shape	(I) or (V) ≤ 45°		
Cutting Speed	-	150 - 800 mm/min	
Speed Control System	-	Gear Reducer	Single Cone System
Drive Method	Manual	Automatic	-
Power Input	-	AC220V 50/60Hz	AC220V 50/60Hz
Weight	10 KG	16 KG	9.5 KG
